Apartment Compactor

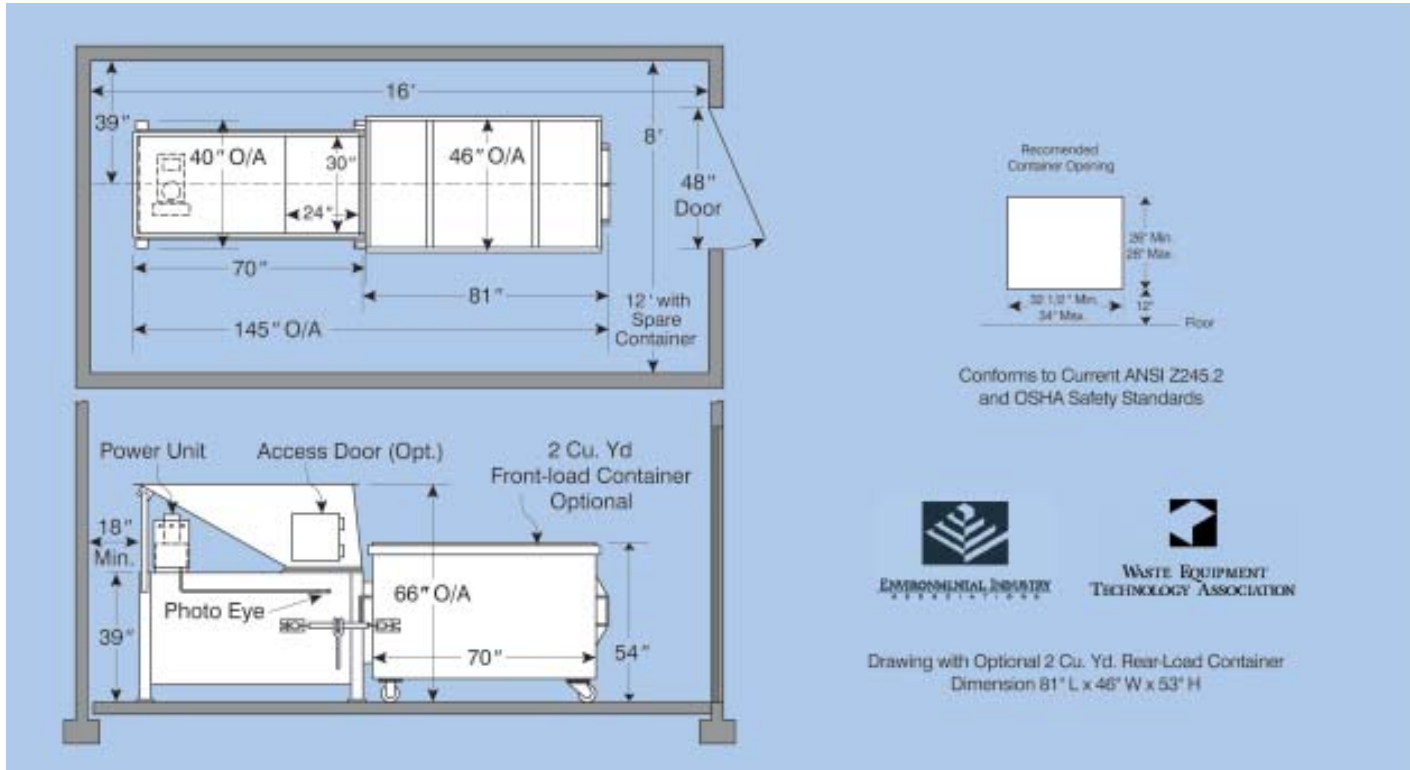

Model APT-331

1/3 cu. yd. Stationary Compactor

- Apartment Style Compactor- Designed for chute or drop in waste collection. Great for High rise and office building applications.
- Limited Space Applications - Compactor and container system can be easily operated in a 16' x 8' room.
- Automatic Photo-eye Start System - Compactor cycles automatically when the chamber is full. No need for service personnel to be present.
- Large waste chute transition hopper standard. Allows for garbage to "hit" the spot with less mess around the compactor.
- Rugged construction for many years of safe, dependable, and productive operation. Better overall operation costs and payback.
- Reduce Hauling Costs - Compacted waste means fewer pickups by the refuse hauler at your facility and more profits for your organization.
- Reduced employee pilferage and scavengers with optional chute systems designed specifically for your location.
- American Manufactured Electrical and Hydraulic Components - Specified for dependability, serviceability, and nationwide availability.
- Outperforms and outlasts all other stationary compactors in its class.
- Meets or Exceeds current ANSI Z245.2 Safety Standards and OSHA job safety requirements.
- Industry's leading Warranty
 - Three Years Ram and Frame Weldment
 - One Year Electrical and Hydraulic Components
 - Parts and Labor
